Local Service International Outlook

We provide a highly personalised
and approachable service.

We are friendly and you will come to know our lawyers well. We could not be more different to the traditional anonymous and cold law firm.

This culture has been developed because we ensure that we recruit happy and personable lawyers who ascribe to our core values. This culture can only exist in a local, single-site law firm, away from the pressures of a traditional national or regional firm, so we can provide a truly accessible and personalised service.

This local culture benefits our clients across the UK, Europe and beyond.

We are the Manchester law firm member of MSI Global Alliance, a leading, international association of over 250 independent law and accountancy firms.

Membership of MSI enables us to source reliable, local legal, tax and accountancy expertise quickly, wherever in the world our clients have links or have assets located.

Therefore if your family has legal needs that cross borders, be it tax, child custody, divorce, international secondment or asset protection, we can work with our international partners to obtain the best solution for you.
